## Water Reservoir Access: Pressure-tight Doors

### Pressure-tight door, rectangular TT 7

**Access door for containers, especially in the field of potable water supply, pressure-tight up to a water gauge of 10 m.**

Pressure-tight door, pressure-tight up to a water gauge of 10 m, opening to the pressure side, ready for installation, to be lined on both sides (wall thickness  $\geq 280$  mm), rectangular, completely made from 1.4404 (AISI 316 L) stainless steel, statically certified.

### Pressure-tight door, rectangular, central lock TT 7.Z

**Access door for containers, especially in the field of potable water supply, pressure-tight up to a water gauge of 10 m.**

Pressure-tight door, pressure-tight up to a water gauge of 10 m, opening to the pressure side, ready for installation, to be lined on both sides (wall thickness  $\geq 300$  mm), rectangular, completely made from 1.4404 (AISI 316 L) stainless steel, statically certified.

Registered design no. 298 01 144.1

### Pressure-tight door, round TT 7.R

**Access door for containers, especially in the field of potable water supply, pressure-tight up to a water gauge of 10 m.**

Pressure-tight door, pressure-tight up to a water gauge of 10 m, opening to the pressure side, ready for installation, to be lined on both sides, round, completely made from 1.4404 (AISI 316 L) stainless steel, statically certified.
